

Modulr payroll payments

At Modulr, we're on a mission to streamline the way businesses, accountancy firms, and payroll providers manage payments.

Modulr is directly integrated with major accounting and payroll software, allowing you to efficiently and quickly pay staff, suppliers and HMRC.

How to pay with Modulr

Once you set up your Modulr account, you can link it directly to your chosen software. In the Modulr portal, your payments are consolidated in one place. When connected, make payments in 3 simple steps.

Process

Process your payroll as normal. Once complete, the information is sent directly into your Modulr portal.

Approve

Simply log in to view, manage, and approve payments. Not at your desk? Approve on the go with the Modulr app.

Fund

Use the add funds feature to top up your wallet. Payments are released instantly or on a selected future date.

Why Modulr is built for your business

Save time and maximise efficiency

Say goodbye to manual processes. No need for manual exports or file uploads to banks. Payroll syncs directly from your accounting software.

Enhanced visibility and control

Stay in control of your cashflow. Fund e-wallets in real time from any bank and approve payments from desktop or the Modulr app.

Eliminate costly payroll errors

No one likes to make mistakes, especially when it's salary payments. Set role-based approvals so the right amount is checked by the right people.

Schedule & clear payments instantly

Faster Payments allows you to make payments within 90 seconds. Make last minute amendments 24/7 so you can pay on time, every time.
