

Make payday simple, fast, and stress-free.

As an accountant, you're not just processing payroll, you're helping your clients take care of their people. Getting payroll right means fewer panicked calls, fewer last-minute fixes, and more trust in the service you provide.

Too many systems, not enough time: Switching between payroll software, bank portals, and email threads eats into your day and increases the risk of errors, making it harder than it should be to deliver an exceptional service to your clients.

Modulr makes payroll payments easy

Modulr Payroll Payments integrates directly with leading payroll and accounting software, so you can approve and send payments quickly and securely - **without needing access to your clients' bank accounts.** It's built for accountants, with the controls, visibility, and flexibility you need to deliver a great client experience.

Why Modulr?

Higher Efficiency

Automate manual payment processes, reduce errors, and gain real-time financial insights. Our solution provides full visibility and control over money flows- allowing businesses to scale with confidence.

01

Increased Revenue

Transform payments from a cost into a revenue driver. A frictionless payment experience improves customer retention and lifetime value - while automation frees up resources to focus on growth.

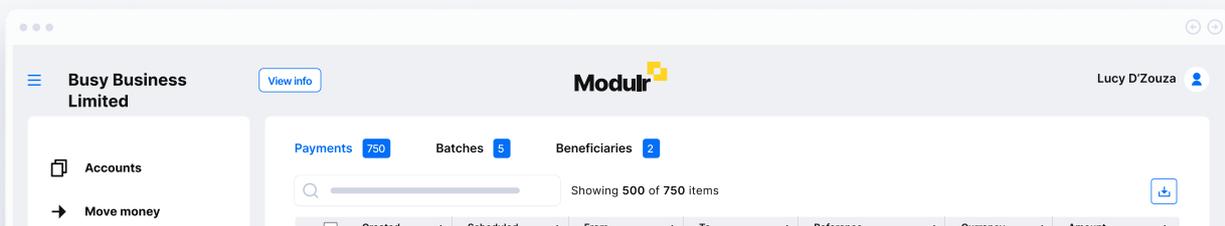

02

Great Customer Experience

Make payments instant and reliable. Customers enjoy a seamless experience that builds trust and loyalty, turning transactions into a competitive advantage.

03

Daily business payments simplified. 24/7.

The opportunity is clear

The challenge

40% of time is spent on reconciliation and error resolution.

The risk

45% of firms spend 3+ hours weekly on manual data entry.

The opportunity

67% of firms are open to adopting a modern payment solution.

Sync data, get approvals and pay with a click

Save you and your clients time & eliminate manual processes

Push payments directly from payroll tools like BrightPay, Sage, and Xero. No exports or uploads.

Avoid costly errors for clients with built-in safeguards

Role-based approvals, Confirmation of Payee checks, and audit trails ensure accuracy.

Built for accountants, loved by their clients.

Approve fund, and execute payments from one dashboard. Mobile approvals with the app.

Keep clients happy with reliable, on-time payments

Faster Payments ensure staff and suppliers are paid, even if there are last-minute changes.

Stay protected with enterprise-grade security

Modulr is regulated and secure, with infrastructure built for accountants and finance teams.

Get help whenever you need it

Our support team is available 24/7.

About Modulr

Trusted and scalable

Modulr is the trusted payments partner behind £150 billion+ in payment volume and counting. We deliver Faster Payments, Bacs, SEPA Instant, SWIFT, Open Banking, Variable Recurring Payments and, soon, Visa A2A. All accessible through a single platform designed for efficiency, control, and growth.

We're integrated across 15+ leading ERP, payroll, accounting, and travel booking systems including Sage, BrightPay, Xero, and Juniper, helping partners and customers embed payments at the core of their business.

With operations in the UK, USA, Netherlands, Ireland, France, Spain and India - Modulr processes over 300 million transactions a year - and we're just getting started.
